## SUBJECT INDEX

Acromegaly, Heredity and symptoms in . . . . . 230
Acromegaly, The prognosis in, treated by transanthro-sphenoidal operation . . . . 420
Adenoid, The immunological function of the . . . . . 196
Alport's syndrome, Two families with . . . . . 234
Anti-allergic drug ICI 74.917 aerosol, A new . . . . . 222
Audiometry, Plethysmography as an objective method of . . . . . 388
Auditory system, Histo-physiological relationships in the deaf white cat . . . . . 48
Cancer, Nasal, and nasal mucus-transport rates in woodworkers . . . . . 263
Cancer of the larynx, Five-year results of 1 000 patients operated on for . . . . . 437
Cervical thymic cysts . . . . . 143
Cochlea, Afferent and efferent nerve terminal degeneration in the guinea pig, following atoxyl administration . . . . . 325
Cochlea, Neural damage in the guinea pig, after noise exposure . . . . . 82
Cochlea of the guinea pig, Hair cell loss as a function of age in the normal . . . . 33
Cochlea, The unmyelinated nerve fibres of the . . . . . 157
Cochlear, Intermediate endo-, potential levels induced by hypoxia . . . . . 354
Cogan's syndrome, Immunological findings in a case of . . . . . 212
Corti, Efferent nerve fibers associated with the outermost supporting cells of the organ of, in the guinea pig . . . . . 41
Corti, Intercellular junctions in the organ of, as revealed by freeze fracturing . . . 57
Corti, Nerve fibers in the human organ of . . . . . 317
Cytocochleogram in atoxyl-treated guinea pigs, The . . . . . 70
Deafness, Identification of normal hearing carriers of genes for . . . . . 245
Ear surgery, Drill-generated noise levels in . . . . . 402
Endonasal venular permeability in rats exposed to the cold . . . . . 118
Hearing impairments, Audiological treatment of pre-school children with . . . . . 268
Hearing loss, Congenital perceptive, and atopic dermatitis . . . . . 242
Immunodeficiency syndromes with otorhinolaryngological manifestations . . . . . 185
Innenohrstoffwechsel, Neue Tierexperimente zum aeroben und anaeroben . . . . 95
Labyrinthine malformations . . . . . 238
Labyrinthine receptors, Development of the, in the guinea pig, cat and dog . . . . 359
Maxillary sinus carcinoma, Treatment policy for . . . . . 172
Maxillary sinus secretion, Immunoglobulins in . . . . . 123
Maxillary sinusitis, Serological studies in acute . . . . . 415

Menière's disease, Immediate relief of symptoms during acute attacks of, using a pressure chamber . . . . . 368
Menière's disease, Intravenous xylocaine in the treatment of attacks of . . . . . 301
Menière's disease, Lithium treatment of . . . . . 294
Menière's disease, Surgical treatment of . . . . . 303
Menière's disease, The effect of ultrasound on . . . . . 312
Menière's disease, The natural course of . . . . . 289
Menière's disease, The vestibular aqueduct in . . . . . 279
Middle ear effusions, Radioimmunoassay of IgE in . . . . . 26
Mucous elements in the airways . . . . . 249
Nasal mucosa of nickel workers, Histological findings in the . . . . . 266
Nasal polyps with beclomethasone dipropionate aerosol, Long-term treatment of,
I. Treatment and rationale . . . . . 252
do: II. Clinical results . . . . . 256
do: III. Morphological studies and conclusions . . . . . 260
Nasal protein concentration, Diurnal variation of . . . . . 219
Nasal secretion from children with recurrent infections in the upper airways, Concentration of immunoglobulins in . . . . . 216
Nasenscheidewand, Zum postnatalen Wachstum der . . . . . 131
Oesophagoscopy, Progress in . . . . . 151
Oesophagus, Pedunculated intraluminal fibro-lipoma of the . . . . . 457
Orofacial anomalies, Genetic aspects of some . . . . . 226
Ossicular chain, Holographic vibration analysis of . . . . . 16
Otitis media, Immunological defects in children with chronic . . . . . 193
Otitis media, On tubal function in presence of central perforation of drum in chronic . . . . . 1
Otitis media, Secretory . . . . . 286
Palate, A new method for strengthening palatal closure defects of the hard . . . . 147
Parotitis, Nosocomial . . . . . 275
Perilymphsubstitution durch Liquor Cerebrospinalis via Aquaeductus Cochleae, Proteinstudie zur Frage der . . . . . 99
Salivary IgA, Phenytoin-induced depression of . . . . . 199
Sensory hair cells of a mammal, The in vitro development of innervated . . . . . 337
Sjögren's syndrome . . . . . 271
Stapedius muscle, Classical conditioning of the . . . . . 11
Stria vascularis, Surface structure of, in the guinea pig cochlea . . . . . 343
Tensor tympani, a 'tuner' of tensor palati muscle . . . . . 410
Thyroid diseases, Auto-immunity in certain . . . . . 202
Thyroiditis, Human auto-immune . . . . . 204
Tonsil, Studies on difference in cellular immune-response between the human, and blood lymphocytes . . . . . 440
Tonsillar gonorrhoea, Microscopy of tonsillar smears and sections in . . . . . 451
Tracheal tubes, New self-adjusting cuff for . . . . . 455

Tympanoplasty, Late results in . . . . . 282
Vestibular dysrhythmia, Quantification of . . . . . 112
Vestibular nystagmus by visual stimulation in the monkey, Selective habituation of . 165
Vestibulo-thalamic projections studied with antidromic technique in the cat . . . . 379
Vocal cord, A scanning microscope study of . . . . . 431
Wegener's granulomatosis, immunosuppressive therapy . . . . . 208

# Sinuiter

— It should be noted that ampicillin, like phenoxymethylpenicillin, does not penetrate into sinus secretions from blood in reliable concentrations. —

*H. Gnarpe and C. Lundberg, Scand. J. Inf. Dis. 3: 257, 1971*

*

— Our investigation shows that doxycycline passes into the sinus secretions eve under severe inflammatory conditions. —

*C. Lundberg et al., Lancet II: 107, 1968*

*

# Vibramycin®

doxycyklin
